About JLC Aviation Services - UK Support for Houchin & other GPUs

JLC Aviation Services supports and services Houchin ground power units plus those from other manufacturers. We provide a comprehensive service including:

- GPU Spares & Accessories
- GPU Service & Maintenance
- GPU Technical Training
- GPU Technical Support

We have a growing list of prestigious clients including the London Airports of Gatwick, Heathrow and London City for our fixed electrical ground power services plus Swissport, Servisair and the TCR Group for our mobile electrical ground power services.

Please contact us for any sales, technical or general questions you may have regarding ground power units and associated equipment and we will be pleased to assist.

Service your GPUs

GPU Service & Maintenance

Our comprehensive GPU servicing and maintenance offering includes repairs and remedial work, plus the provision of replacement parts and spares, for all types of equipment. To minimise the downtime in operation, servicing is usually carried out on-site by our experienced and fully trained team of engineers.

We also provide a range of servicing and maintenance packages to suit your requirements, ensuring that your equipment is always operating reliably, efficiently and safely.

GPU Technical Training

Our GPU training maximises the efficiency and safety of equipment performance by ensuring your operatives are familiar with the principles of operation, as well as the required safety standards and considerations.

Delivered by our knowledgeable and professional technical team, training is undertaken on-site and combines practical hand-on experience with theoretical modules covering:

- Types of ground power units
- Safety regulations
- Operating GPUs
- Connecting GPUs
